

## December Community Update

### **Panera Fundraiser**

Our team held an evening fundraiser at Panera Bread. We raised \$92 and many families from the community attended. Overall, it seemed like everyone had a great time enjoying a great meal with their friends and family.

### **Victor PTSA Holiday**

The leader of manufacturing made polycarbonate Christmas ornaments for the Victor PTSA holiday store. The store was held at the Victor Primary School and took place on the 13th and 14th. All of our ornaments were sold.

# DEVIL TECH

LEARN BY DOING • INSPIRE BY LEADING • STRIVE FOR SUCCESS

## What did we do in December?

**Website** - Website is almost ready to launch! Will be fully finished in January

**CAD** - Training new members to make various parts and assemblies

**Fundraising** - Hosted the Panera Fundraiser! Part of the proceeds came directly to our team.

**Software** - Further explored a new user-friendly dashboard, "Shuffleboard." Finished creating a "Puppy-bot" program

**3D Printing** - Trained new members on printers and printed a few test parts

**Electrical** - Worked on building a robot battery cart to easily charge and transport batteries.

**Manufacturing** - Continued training members on the chop saw, table saw, disc sander, and other machines.

## Our brand new practice field!!!

We are very excited to finally have a place to store the field. We've never really had a dedicated space for practicing before, so this will be a huge help for us this year!

## KICK OFF IS ALMOST HERE!!!

**January 4th** is the official FIRST™ Robotics Competition 2020 competition kickoff! Our team will be travelling to Spencerport High School to watch the season's game!
