

# Week 0: Kickoff!

1.7.2023

---

After 12 long weeks of preseason, we're all excited to get into the new Charged Up game.

Team 1559 went straight into analyzing the game and studying the manual before a few days of full-team brainstorming. At the start of each meeting we had small quizzes on game manual details and rules, with movie tickets and gift cards as prizes for the winners.

By the end of the week we had several great arm, grabber, and chassis prototypes. This kickoff was a resounding success and we can't wait to get building!
