

Week 6

2.18.2023

Tryouts for the team's new co-pilot are officially open. Applicants must be able to adapt quickly, communicate efficiently, have a good understanding of the rules, and be able to meet outside of regular team times. We're excited to see who earns the spot!

Apparel orders close this Saturday (Feb. 18) at noon, so if you're able to pick up from the team in person and want a hat, shirt, or hoodie, get it quick! We will only be ordering once.

Our 3D printers have been busy creating parts to be used on the grabber, while manufacturing is working on polycarbonate parts of the arm.
